LINKEX™ LED TEMPORARY LUMINAIRE LX-400/E ACCESSORIES

WITHOUT COMPROMISE

PRODUCT INFORMATION

Wolf's extensive range of positioning, mounting and protection accessories, encompassing fixing kits, films and cable management, for the LinkEx™ LED Temporary Luminaire (LX-400 & LX-400E) give workers more secure temporary installation solutions for temporary lighting in hazardous area working environments.

PROTECTION ACCESSORIES

LX-545/3 Anti-Static Protective Film (Hazardous Area Certified) - The Hazardous Area certified, anti-static LX-545/3 Protective Film can be attached to a luminaire to protect it from dirt, paint and other contaminants to increase the life of the product, whilst still allowing excellent light output. Lamps supplied as new are fitted with one film. Each additional LX-545/3 kit contains 3 films.

LX-545 Hazardous Area Certified Anti-Static Protection Film

LX-621 Anti-Static Protection Cover Kit (Hazardous Area Certified) - The Hazardous Area certified, anti-static LX-621 protection pack protects the light from dirt, paint and other contaminates. Covering the entire light, cable gland, end caps and link socket if fitted. Particularly useful in sewerage type environments, the protective cover seals around the power cable with the cable ties provided, minimising potential damage to the light and helping to extend its useful life. Each kit contains 5 bags. (Ambient temp reduced to 45°C when protective cover is fitted)

LX-621 Hazardous Area Certified Anti-Static Protection Bag

TRIPODS

Wolf's tripods give a stable platform allowing the luminaire to be attached with the **LL-670** Tripod Bracket Kit and used at a variety of heights and positions to deliver vertical or horizontal forward facing light, in the horizontal position the light can be directed upwards, illuminating the work area from the underside.

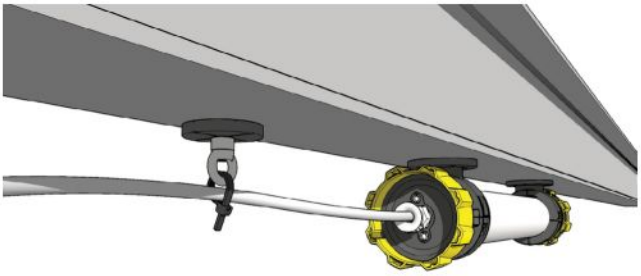

LL-668/35 & LL-699/18 Tripods with LL-670 Mounting Bracket

FEATURES

- Flexible and sturdy mounting and positioning options for temporary applications.
- Securely mount or hang a luminaire almost anywhere and in any orientaion.
- Each fixing kit contains the brackets to mount one LinkEx™ LED Temporary Luminaire or two lights where dual specific.
- Wolf's tripods give a stable platform allowing the Tripod Bracket Kit to be used at a variety of hieghts and positions.
- Lightweight & easily transportable, steel Tripod Stands available, as well as Tripod Stands that will extend a lamp to a height of up to 3.5 meters.
- Protective film/covers are easily replaced between uses and come supplied with cable ties.
- Each film is supplied with an easy peel foam back for ease of application.

FIXING ACCESSORIES & CABLE MANAGEMENT

Wolf's LinkEx™ LED Temporary Luminaire plastic brackets, with snap shut mechanism and screw to lock securely closed around a luminaire, form a key component of all Wolf's fixing kits giving flexible and sturdy mounting and positioning options for temporary applications. Securely mount or hang a luminaire almost anywhere and in any orientation - putting the luminaire exactly where it is needed. Additional fixing accessories listed below.

LX-692 Magnet Cable Tidies & LX-680 Magnet Bracket Kit

GLARE REDUCTION FOR WORKER WELLBEING

If the luminaire is deemed too bright, when being used in a confined space at head height by a worker, an LX-374 Internal Diffuser Film can be installed to minimise glare.
