FLOOD BANK STANDS

WITHOUT COMPROMISE

FOR XT HANDLAMPS
XT-402, XT-404 & XT-406
MOUNT ZONE 0 HANDLAMPS XT-75 TO CREATE A ZONE 0 FLOOD LIGHT

PRODUCT INFORMATION

For safe use in Hazardous Areas, the Flood Bank Stands accommodate Wolflite® XT Rechargeable Handlamps and exploit their excellent performance and reliabilty to collectively deliver a bright flood of intense illumination of up to 2,100 lumens.

Available in 2, 4 or 6 handlamp bank configurations, the stands can be placed on level ground or mounted on a tripod (available separately) to elevate, direct and focus the light to the desired task working area.

Utilising a stainless steel skid, each stand incorporates handlamp holders with a 'snap-in/snatch-out' function for quick release but secure retention, and allows the bank of handlamps to be manually tilted and locked in position. For maintenance tasks, the banks are easily transportable using the integrated handle.

The handlamps can be removed from the stand in the Hazardous Area and used for close inspection work, or in awkward to reach locations.

The Flood Bank can also act as an emergency backup light source, independent of lead powered lighting. Charging to be carried out in safe area (see XT handlamp sales sheet for full details)

TECHNICAL INFORMATION

FLOOD BANK STANDS			
PRODUCT REFERENCE	XT-402	XT-404	XT-406
PRODUCT DESCRIPTION	Flood Bank Stand		
HANDLAMP CONFIGURATION	x 2	x 4	x 6
